

EFA-SRT® EC: The Hygiene Solution

The EFA-SRT® EC (Easy Clean) offers the optimum solution for internal corridors that call for the highest standards of hygiene, for example in food preparation environments. This effective alternative was developed to minimise settlement on the frame covers, even incorporating easily removable leg and top covers for easy cleaning! With options including two stainless steel finishes this also makes the SRT-EC the ideal door for applications within harsh or humid environments.

Top cover

- Designed to be easily opened for internal cleaning
- Slanted design to avoid dripping on goods and persons

Control EFA-TRONIC®

- Externally mounted stainless steel control box
- With integrated frequency converter
